1. The Hong Kong Institution of Certified Auditors (HKICA) was established in 2006. It is a non-profit making organization providing services to the quality, environmental, occupational health & safety, food safety, laboratory and other management systems auditing professions in Hong Kong. Its Executive Board comprises members from universities, public authorities, governmental organizations, certification bodies and management systems consultants in Hong Kong.
2. Its primary objectives are:
  - (a) to promote the status of management system auditors to the public as a profession;
  - (b) to establish a local based lead auditors and auditors registration system in accordance with ISO/IEC 19011:2018 and relevant standards and to maintain a database of all registered auditors in the HKICA website for the benefit of the industry;
  - (c) to set up personnel certification schemes for different levels of management system auditors in accordance with the requirements of ISO/IEC 17024:2012, IPC\_PL\_11\_006 and CNAS-CC03:2014;
  - (d) to deliver auditing related seminars and workshops which are of common interests to local auditing profession;

- (e) to provide a focal point where registered auditors and certified auditors can get together for exchange of experience and knowledge and fostering of future developments in the related professions;
- (f) to liaise with overseas equivalent bodies for reciprocal recognition of auditors certification schemes; and
- (g) to approve auditing and related training courses for recognition by the auditing profession and the public in accordance with the international practice.

### 3. Background

3.1. Determined to avert the lack of recognition of professional status of auditor locally, a Certification Scheme of Quality Management System Auditor (CSQMSA) was established by HKICA in April 2015 with the following aims:

- (a) to give professional recognition to the auditing practitioners so as to attract and retain talented and skilful personnel to enter into the auditing industry where Hong Kong enjoys clear advantages and has good potential for further development;
- (b) to set benchmarks for the upgrade of expertise and knowledge of the certification personnel;
- (c) to improve the professional image of Hong Kong certification industry and contribute to the building up of brand name for Hong Kong certification services; and
- (d) to become a renowned public personnel certification body in the Asia Pacific Region.

4. The initial establishment and operation of the Scheme CSQMSA is sponsored by SME Development Fund (SDF) of the Trade and Industry Department. The Hong Kong Institution of Certified Auditors is the sole organization in Hong Kong providing the certification service for Quality Management System Auditor.
  - 4.1. The benefits of certification include:
    - 4.1.1. recognition and prestige for the individual and creation of a competitive advantage over non-certified individuals in the same field;
    - 4.1.2. enhanced employment opportunities;
    - 4.1.3. establishment of a professional standard for individuals in a particular auditing field;
    - 4.1.4. assistance to employers in making more informed recruitment decisions;
    - 4.1.5. a more productive and highly trained workforce for employers;
    - 4.1.6. enhanced professional impression on customers;
    - 4.1.7. assistance to customers in making informed decisions about qualified auditors and prevention of using incompetent and unfit practitioners; and assurance of the accuracy and validity of auditing results.
5. This “Criteria” is established by HKICA based on (IPC-PL-11-006) “Certification Scheme IPC Management System Auditors” and IPC (BD-05-007) “Specification for the Development of Examinations as Part of a Certification Scheme for MS Auditors”. The objective of the Scheme is to ensure the knowledge, competence and personal attributes of QMS auditors in meeting the quality requirements of auditing operation.
6. The mechanism of evaluation of competence of HKICA-QMS auditors as stipulated in this “Criteria” is based on the concept and requirements of BS EN ISO/IEC 17024:2012 “Conformity assessment — General requirements for bodies operating certification of persons”, CNAS ““General requirements for bodies operating certification of persons (ISO/IEC 17-24:2012, IDT)” and ISO 19011: 2018 “Guidelines for auditing management systems”.
