

Organised CPD Event:

Insights from the Issues of Bottled Water Testing

Abstract:

The Consumer Council tested 30 bottled water samples, raising concerns about the testing definitions and standards. The talk will scientifically explain the report, including the definitions, requirements, and technical details for bromate, microplastics, and total dissolved solids testing, as well as the causes and toxicological risks of certain contaminants.

Date

6 August 2024 (Tuesday)

Time

6:30 pm to 8:30pm

Mode

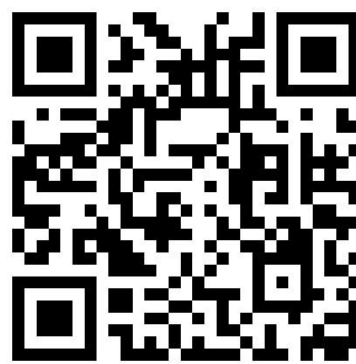

Free Webinar via ZOOM

Speaker:

Dr SZE, Tung Po Eric 史東甫教授
Vice-President of HKICA &
Adjunct Associate Professor,
Department of Chemistry,
The Chinese University of Hong Kong

Registration:

**Bottled
Water Testing**
**Regulatory
Definitions**
**Contaminant
Risks**

Remarks:

- (1) The webinar is free and open to all HKICA members and public.
- (2) Prior registration via QR code is required, successful registrants will receive confirmation email with access link 5 days in advance.
- (3) HKICA CPD certificate will be issued on request to those who have participated in at least 75% of the event. The certificate is free for HKICA members, while a HK\$20 fee will be charged for non-members.
- (4) For enquiry, please contact Ir Victor KY LO at hkica.victorlo@gmail.com
